DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/9/2009 has been entered.

Allowable Subject Matter

Claims 16, 18-23, 25-27, 29 and 30 are allowed.

The following is an examiner's statement of reasons for allowance: All of the instant claims are allowable over the instantly cited prior art at least because none of the cited prior art shows or fairly suggests the use of a plurality of ripples providing a flow channel which does not decrease and includes only a single point of contact between a stopper and nozzle, resulting in the improved flow properties described in the affidavit filed on 4/9/2009 which compares the claims of the instant invention with that of the closest applied prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
